

Technical Data Sheet

Suntant SMCT

Sodium Methyl Cocoyl Taurate
 CAS# 12765-39-8

Description

Suntant SMCT has good compatibility, reduce the irritation of other surfactants. It contains hydrophilic amino acid structure has low irritation for skin, non-toxic and easy biodegradation. With its excellent detergency, moisturizing, emulsification and softening ability, it can be applied to a wide range of products with good forming ability under wide range of pH level.

Specifications

Item	Specification
Appearance	White Powder
Active Matter (%)	≥ 95.0
NaCl (%)	≤ 3.0
Moisture (%)	≤ 3.0
pH (25 °C, 1% aq. soln.)	7.0 ~ 8.0

Applications

Suntant SMCT can be used in all kinds of cosmetics, toothpaste, shampoo, foaming cleanser, bathing, cleaning agent and baby wash products etc.

Store

Store in dry and cool environment in airtight containers.

Shelf Life

2 years
