

# Technical Data Sheet

## Suncide S-DHA

Sodium Dehydroacetate

CAS# 4418-26-2

### Description

Suncide S-DHA is salt form of Dehydroacetic acid which has good water solubility. It is excellent fungicide and widely known ingredient so there is no regulation barrier to use it for global market. Also, it is physically and chemically stable with good compatibility.

### Specifications

Item	Specification
Appearance	White powder
Purity (%)	98.0~100.5
Water (%)	8.5~10.0
Cl (%)	≤ 0.011
Alkalinity (%)	Qualified
Heavy metals (ppm, Pb)	≤ 10
Arsenic (ppm, As)	≤ 3

### Applications

It can be applied to various cosmetics like skin care, sun care, body care, soap and color cosmetics.

### Storage

Store in a well-ventilated and keep container tightly closed.

### Shelf Life

2 years
