

Technical Data Sheet

Suntant DLGT35

Disodium Lauroyl Glutamate

CAS# 29923-31-7

Mol. wt. 373.4 g/mol
 Formula C₁₇H₂₉NNa₂O₅

Description

Suntant DLGT35 is an anionic surfactant that derived from plant (coconut). It is very mild, hypoallergenic and non-comedogenic. It has good performance in the presence of hard water or sebum for surfactant for various kinds of shampoo & personal care products. Also it is suitable for various forms like bar, liquid, paste, foam or powder.

Specification

Item	Specification
Appearance	Clear, colorless liquid
Color (APHA)	≤ 200
Solid content (%)	34.0 ~ 38.0
pH (10% ap. solution)	9.50 ~ 10.50
Sodium chloride (%)	4.00 ~ 6.00

Applications

Suntant DLGT35 can be applied to shampoo, facial cleanser and shower gel, etc.

Storage

Protect from extreme heat and cold. It should be closed and stored in dry area.

Shelf Life

2 years
