

## **Technical Data Sheet**

### **Suntant PCG30**

Potassium Cocoyl Glycinate

CAS# 301341-58-2

Item	Specification
Appearance	Clear, colorless liquid
Color, APHA	Max 80
Active content, %	23 ~ 34
pH, (10% aqueous)	7.0 ~ 9.0
Solid content, %	29 ~ 35
Ash, %	Max 7.5
Nitrogen content, %	1.1 ~ 1.6
Transmittance, %	Min 85

#### **Description**

Suntant PCG30 is anionic surfactant derived from amino acid glycine (a main component of human skin collagen) and coconut fatty acid. Highly biodegradable. Good skin affinity, leaves a clean and gentle feeling on the skin. Furthermore, its foaming ability is good, even in hard water.

#### **Applications**

Suntant PCG30 function as mild surfactant / co-surfactant is suitable for face, hair, body and baby cleansers.

#### **Storage**

Protect from contacting with air, light and moisture.

#### **Shelf life**

2 years
