

# Technical Data Sheet

## SUNSORB UV-1

### Description

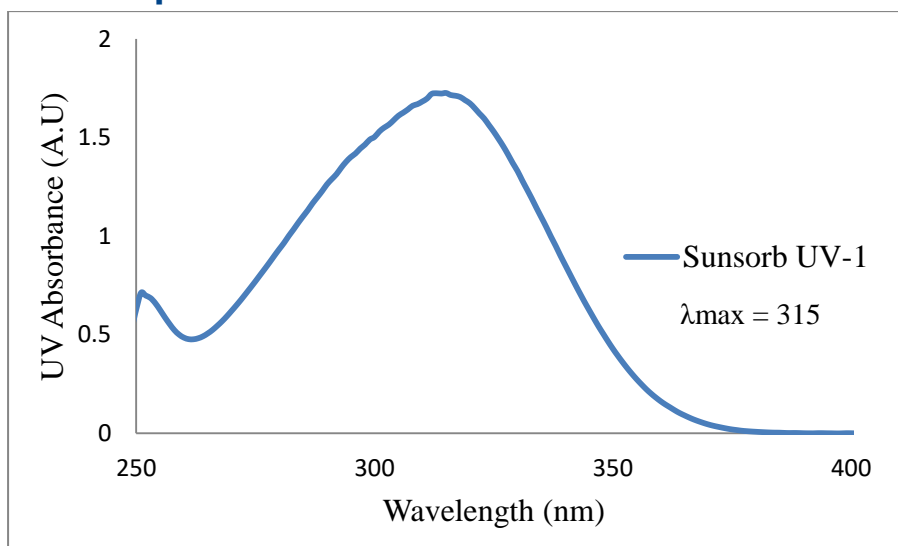

Chemical Name    N-(4-Ethoxycarbonylphenyl)-N'-Methyl-N' Phenylformamidine  
 CAS #                57834-33-0

Formula            C<sub>17</sub>H<sub>18</sub>N<sub>2</sub>O<sub>2</sub>  
 Mol. wt.            282.3

### Specifications

Item	Specification
Appearance	Pale yellow liquid
Content (%)	Min. 99.0
Viscosity (cps @25℃)	2,500 ~ 3,000
Color (APHA)	Max. 500
pH	7.5 ~ 8.5
λ <sub>max</sub> (nm)	316

### UV Absorption

## Applications

It is an effective UV absorber for PU in a wide range of applications.

## Delivery & Storage

Package      As required

Storage      Keep sealed and avoid moisture. Store in dark and cool.
