

Technical Data Sheet

Suntant SCG

Sodium Cocoyl Glycinate
CAS# 90387-74-9

Mol. wt. 279.356
Formula C14H26NNaO3

Description

Suntant SCG is derived from natural sources and performs exceptionally well in body wash, shampoo, and facial cleansers. Some important features when used for cosmetic formulations:

- Very mild, noncomedogenic, and hypoallergenic
- Highly biodegradable and derived from natural sources
- Allowing very affluent and small form

Specifications

Item	Specification
Appearance	White powder
pH (10% aqueous)	7~8.5
Acid Value (mg KOH/g)	0~40
Water content (%)	Max. 5
Active content (%)	Min. 93

Applications

It is a mild surfactant with excellent cleaning properties and excellent foam performance. It is very suitable for cleaning hair and sensitive skin applications.

Storage

Keep closed tightly. Store at temperatures between 0~40°C in a well-ventilated dry place.
Avoid light and heat.

Shelf Life 2 years
