

Technical Data Sheet

Sungel MS5

Mineral Oil (and) Hydrogenated Styrene/Isoprene Copolymer (and) Butylene/ Ethylene/ Styrene Copolymer
 CAS# 8042-47-5 (and) 68648-89-5 (and) 66070-58-4

Description

Sungel MS5 is highly efficient oil gel based on white mineral oil. It has excellent effective function for providing high viscosity to oil solution and modifying the pigment dispersion & emulsion stability. Also, oil gels with Sungel MHIB maintains stable property at even high temperature.

Specifications

Item	Specification
Appearance	Viscous clear liquid
Specific gravity (25°C)	0.820 ~ 0.880
Viscosity (25°C)	47,000 ~ 57,000

Applications

It can be applied as a thickening agent in various kinds of cosmetics like lip care, color cosmetics, sun care products, skin care, moisturizer, body wash, makeup remover, and body & facial masks, etc.

Storage

Keep airtight container in a dark cool place

Shelf Life

2 years
