

Technical Data Sheet

Sundiol 6T

Chemical Name	1,2-Hexanediol	Formula	C ₆ H ₁₄ O ₂
CAS #	6920-22-5	Mol. wt.	118.17

Feature

- Completely soluble in water
- Excellent preservative property

Specifications

Item	Specification
Appearance	Colorless clear liquid
Odor	Less than standard
Purity (by GC, %)	≥ 99.0
Specific Gravity (20/4°C)	0.9502~0.9510
Refractive Index (20°C)	1.4370~1.4470
Moisture (%)	≤ 0.50

Applications

Sundiol 6T can be used in many industrial fields as a preservative, a monomer for polymerization and a polar solvent

Storage Keep container tightly closed. Keep a cool and dry place.

Shelf Life 5 years

Delivery & Storage

Package 15kg / Can
Storage Keep sealed and avoid moisture. Store in dark and cool.
