

Technical Data Sheet

SUNLIT SPS

Description

Chemical Name	Bis-(sodium sulfopropyl)-disulfide	Formula	C ₆ H ₁₂ O ₆ S ₄ Na ₂
CAS #	27206-35-5	Mol. wt.	354

Specifications

Item	Specification
Appearance	White or yellowish powder
Assay (%)	≥95

Applications

SUNLIT SPS is used as brightener in acid copper baths for decorative and functional deposits (i.e Printed circuit boards). SUNLIT SPS is functionally compatible with most components of typical copper bath formulations, such as non-ionic surfactants, polymeric amines and other mercapto compounds. An additional combination with dyestuffs is also possible. Very good results are obtained if used together with DPS and EXP 2887.

Delivery & Storage

Package	20kg/drum
Storage	Keep package closed. Store dark and dry
