

# Technical Data Sheet

## **SUNCURE BP-BG4**

Poly(ethyleneglycol)bis(p-dimethylaminobenzoate)

CAS No. 515136-48-8

### Description

SUNCURE BP-BG4 is a photoinitiator designed for use in inks and coatings requiring low migration and low volatility. Suitable for use with amine synergists and pigmentless coatings.

### Specifications

Item	Specification
Appearance	Liquid
Absorption (nm)	270, 325

### Applications

SUNCURE BP-BG4 is suitable for wood coatings, plastic coatings, graphic arts, etc.

### Storage

SUNCURE BP-BG4 should be sealed and stored in a closed, dark and dry place. It should be away from sunlight.

**Shelf Life** 2 years
