

Technical Data Sheet

ODPA

4,4'-Oxydiphthalic Anhydride

Description

Chemical Name 4,4'-Oxydiphthalic Anhydride
CAS # 1823-59-2

Formula $C_{16}H_6O_7$
Mol. wt. 310.21

Specifications

Item	Specification
Appearance	White Powder
Melting Point (°C)	227 ~ 229
Purity (HPLC, %)	Min. 99.5
K (ppm)	Max. 2
Ca (ppm)	Max. 2
Na (ppm)	Max. 2
Fe (ppm)	Max. 2
Cu (ppm)	Max. 2

Applications

It is used for producing polyimide film, resin, fiber and insulation materials.

Delivery & Storage

Package 25kg/drum
Storage Keep away from heat and sources of ignition. Mechanical exhaust required. When Handling and Storage not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light.
